STAT

NOTE FOR: Mr. Bannerman via Mr. Coffey, 

STAT

I read the attached draft of the Professional Recruitment Brochure over the weekend and think that  and the Office of Personnel have done a pretty good job on synthesizing the previous divergent drafts.

I have penciled a few relatively minor notations on the draft which you may or may not agree with.

The Office of Personnel asked that we take a look at this and then return it for their fanning out to the University Associates. In view of the pending recommendation that the University Associates be phased out, and to avoid too many versions of the brochure being received back, I would suggest that the number of Associates to which it may be sent should be severely restricted.

Recommend your signature on the attached routing sheet.
